## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on 28 October 2003 was considered by the examiner.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Kung et al (US 6,553,025).

For claim 1, Kung discloses a method comprising generating, from a received frame, a monitored frame having unique in-device information and a normally-transferred frame (see column 2, lines 50-54), and establishing a path corresponding to each of the generated frames (see column 2, lines 58-63).

For claim 6, Kung discloses a frame transfer apparatus comprising a frame processor for generating, from a received frame, a monitored frame having unique in-device information and a normally transferred frame (see figure 1, item 111 IP-AMCP), and a switch portion for establishing a path corresponding to each of the generated frames by inputting frames (see figure 1, item 109 HFC distribution plant).

3. Claims 2-5 and 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
